<SEDA N. TASKAN>

I am a hardworking, ambitious and creative person. I have no work experience, yet. I am currently looking for an opportunity to internship.

PROJECTS

2022 | PY **KOKONUT**

Our project aims to facilitate the search for a house, especially for university students as well as anyone looking for a house. According to the criteria entered, it collects the house ads on the main real estate pages and presents them to the user by sorting them from cheap to expensive. The user who chooses the suitable house is directed to the main page of the advertisement. JavaScript, Python, BeautifulSoup4 library for backend in this application; HTML - CSS was used in the frontend part.

2021 | JAVA **cheAPP Market Price Automation**

This application is made for find the cheapest product at the some markets. You can find the cheapest product by scan or write the barcode of product. cheAPP shows you which market has cheapest price then you can add it to your basket if you want. You can see your basket, easily delete items or add coupon. This application is written in JAVA and used Selenium for scanning barcode and JSwing for GUI.

2021 | C# **Hospital Appointment Automation**

It is the automation of the hospital appointment system, where you can easily make an appointment from the selected hospital and browse the appointments. Also in Admin Panel, you can add doctor and announcement, look up appointments and members list, add or delete admins This project is a WinForm application and written in C#. Used SQL Access for database, CefSharp for GoogleMaps and Bunifu Framework for GUI.

2022 | JS **F1 Fixture**

This project shows fixture of F1 current season and all champions since 1950. Written in JavaScript and used F1 API. Hosted in replit.com.

EXPERIENCE

- I have no job experience, yet.

SKILLS

- Languages: C# • C • Java • SQL • C++ • CSS • HTML • Python • JavaScript
- Libraries/Frameworks: Selenium • JSwing • WinForms
- Tools/Platforms: GitHub • Glitch • Bootstrap • LATEX • Excel • Canva

EDUCATION

- 2020 - ... | Gazi University
Bachelor's in Computer Engineering
C. GPA: 3.13 / 4.0
Paper: Cryptography
Society: Gazi University Cinema Society - as Vice President
- 2016 - 2019 | Erzincan Anatolian High School

</COMPUTER ENGINEERING STUDENT>
